The image features a central graphic of a cloud with the text "CloudFuze" and a small cloud icon inside it. The cloud is white with a yellow outline and is set against a dark blue background with concentric circles. Below the cloud, there are several glowing yellow lines that connect to various devices at the bottom. These devices include a desktop monitor, a smartphone, a tablet, a laptop, and a small square device. The overall theme is cloud computing and network connectivity.

ABOUT US

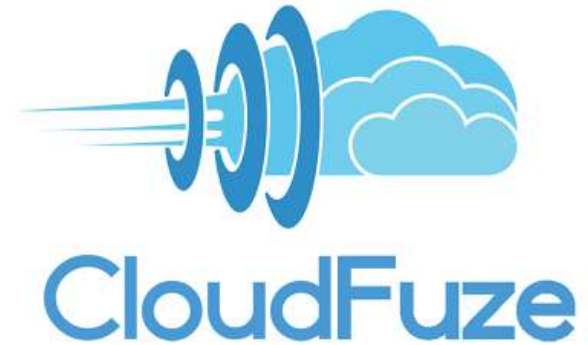

ABOUT CLOUDFUZE

- ✓ CloudFuze Inc.
- ✓ Founded in 2012
- ✓ Based in Research Triangle Park, NC (US)
- ✓ Sales offices in Milpitas, CA (US)
- ✓ R&D offices in Hyderabad (India)
- ✓ Employing 25 people around world
- ✓ URL www.cloudfuze.com

KEY VALUES

- ✓ CloudFuze Enterprise provides the solution you need to secure, manage, and track sensitive information that is stored in cloud file storage services.
- ✓ These services have exploded onto the scene and create critical risk and security issues due to the high likelihood of data loss or leakage.
- ✓ CloudFuze provides the right tools to allow the organization to know what information is being stored in these cloud services, the tools to secure it, and provides full management functionality. You can generate automated reports and perform audits to detect improper use of confidential data.
- ✓ CloudFuze also delivers back-up and file protection to ensure data is always available. And of course, CloudFuze allows you to integrate public and private cloud file storage services.

- ✓ **ANY DEVICE**
- ✓ **ANY STORAGE**
- ✓ **ONE PLATFORM**

CloudFuze

SOLUTION OVERVIEW

CLOUDFUZE TRANSFORMS THE WAY YOU SHARE, MANAGE AND COLLABORATE WITH YOUR CORPORATE INFORMATION.

Designed without compromise between security and ease-of-use, CloudFuze allows every employee to securely work across teams, with customers, and with partners - on any device, anywhere.

WHY CLOUDFUZE

1 A Single Point of Management

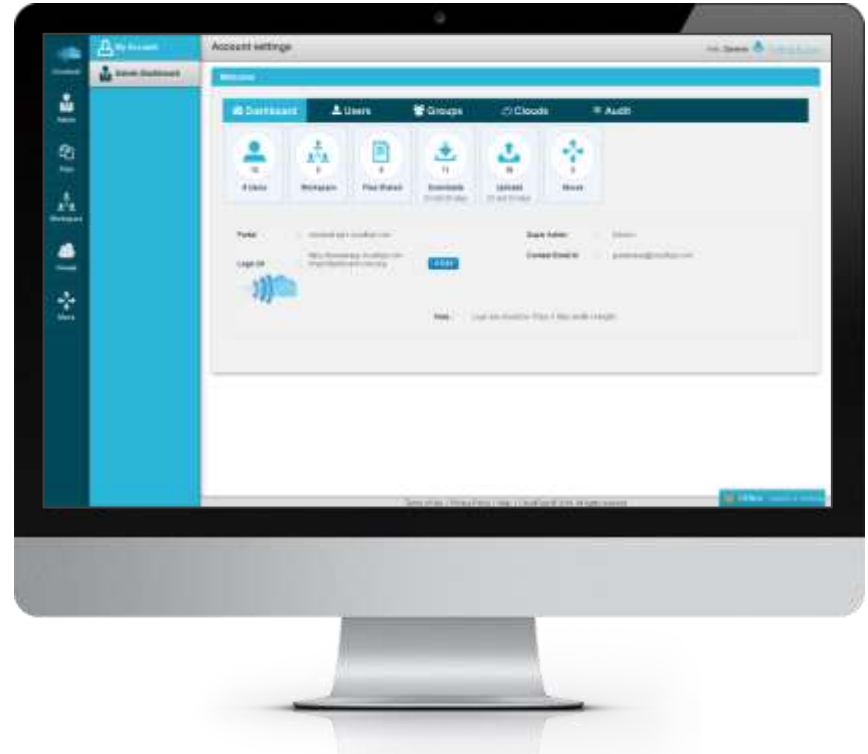

Data is spread out over many cloud services and it's getting hard to find what file is actually stored where, and even what files are secure. We need a single point of management!

2 Powerful & Secure Sharing

Our organization has more sensitive data in personal cloud file sharing services than we want, and we're sure a lot of it is not secure. We need help protecting critical data.

3 Simple Migrations

Moving files between cloud services is a nightmare of "one-at-a-time", repetitive tasks. There has to be a better way!

WHAT WE DO

MANAGE

- ✓ *Manage all of your files regardless of cloud storage service from a universal platform.*
- ✓ *Stop wasting time logging into multiple cloud storage services individually.*
- ✓ *Gain a single point of access to all of your files stored in the cloud.*

WHAT WE DO

SECURE

- ✓ *Securely access content in the public clouds*
- ✓ *Share content with full security and controls*
- ✓ *Fully featured admin console with reports and audit logs*
- ✓ *Govern and disable users & shares while off-boarding*
- ✓ *Integration with LDAP/AD for easy management and provisioning.*

WHAT WE DO

MIGRATE

- ✓ *Move files from one cloud to another from a single screen.*
- ✓ *Stop logging in and out of different cloud services and downloading or uploading files to transfer them.*
- ✓ *Transfer files with ease as if all of your cloud storage accounts are one.*

BENEFITS FOR ENTERPRISE USERS

Single Point of Access

Log in to CloudFuze to access and manage all of your files across multiple storage clouds from one screen.

On-the-Go Management

Use your mobile device to access CloudFuze whether you're at home, at work, or traveling the country.

Secure Personal Files

Protect all your assets- from family photos, to employee information, to financial statistics for your business.

BENEFITS FOR IT ADMINS

Secure Mobile Access

Know your documents and presentations are secure while having anywhere, anytime access to content on any mobile device.

Simple & Secure Sharing

Stop your employees from sending insecure email attachments. Instead, use customized CloudFuze shared links with passwords, expiration dates and restricted download access.

Powerful Admin Controls

Manage, Govern and audit users, devices, content, file & folder permissions and shares in a centralized console.

KEY FEATURES

Single Login Access

CloudFuze's Clouds Manager allows you to sync multiple cloud storage accounts and access all of your cloud files from one point. CloudFuze currently supports 10 public cloud storage services

Clouds Manager

Clouds Manager allows you to configure accounts with CloudFuze and provides a global view of your files. Easily add new accounts or delete cloud accounts currently added to Cloud Manager.

Organize Files

CloudFuze offers simplified file management features to organize files in an enhanced manner. The file Favorites feature allows you to select your files and access all your files with one click.

Multiple File Views

CloudFuze Cloud File Manager offers multiple file views. By default you will see all files and folders related to all your cloud accounts, You can sort these files by file name, added date, size, service, last edited date and etc.

Manage Files & Folders

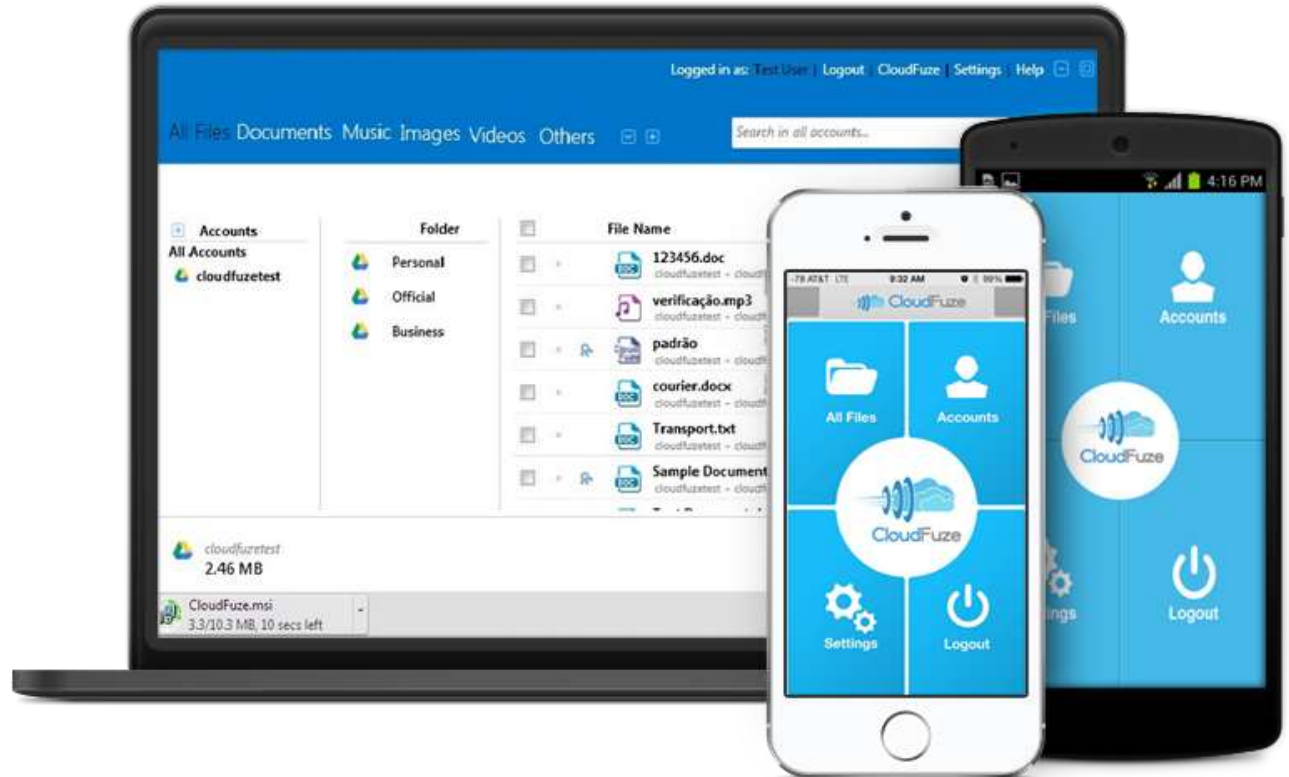

You can upload multiple files from your computer to any cloud service configured with your CloudFuze account. You can even download files that you would like to access. Create folders and upload required files to any of these folders directly with CloudFuze.

Fast File Search

CloudFuze's Cloud File Manager can search by file name across all of your cloud storage accounts and uses search as you type to suggest matching file names as you type. Even if you do not know where the exact file is located you can see it through bread crumb functionality.

SUPPORTED DEVICES

The image features a central graphic of a cloud with the text "CloudFuze" and a small cloud icon inside it. The cloud is white with a yellow outline and is set against a dark blue background with concentric circles. Below the cloud, several glowing yellow lines connect to various devices at the bottom, including a desktop monitor, a smartphone, a tablet, a laptop, and a server rack. A yellow banner with the text "SUPPORTED PLATFORMS" is positioned across the bottom of the image.
